
Exam 1 Appeals

Exam I will be returned in sections (those of you with Thursday sections should have already received your exams).

Remember that you **may** appeal errors that you find in the grading of your exam, if you wish. However, **you must follow the appeals process described on Wednesday and appearing on the class web site precisely.**

Do **NOT** just corner your TA and ask for more points. You **must** submit a formal appeal.

You **may not** write on your exam in any way before filing an appeal.

Since the appeals procedure appears on the class web site and on Wednesday's lecture slides, I will not repeat them here, but if you wish to retain the ability to appeal, you should read the procedure carefully.
