

# Math 148 - Elementary Bio Stats

## Fall 2017 Homework 09

**Exercises Ch.21** on p.570: Problems #8, #12, #24, #28, #32, #38, #44  
Do NOT do the review excercises on p.578!

**Exercises Ch.22** on p.616: Problems #14, #22, #28, #34, #38, #44,#56

Note that the page number references are taken from the instructor's edition and they may be slightly off.

**all answers to the textbook exercises must be typed by computer**, except that you may do drawings by hand (**use a ruler!**). Note though that it would be easier and faster to use a program like Excel or StatCrunch to create box plots, etc.

Note on DVB homework: Assignment MATH-148-DVB-Hwk-11 has been published concurrently with this assignment. **The exercises for ch.22 do not seem to match at all what is in the book.** That should not really matter though because, as always, this DVB homework will not be graded and its purpose is to provide you with additional opportunities for practicing.
