Note that the page number references are taken from the instructor's edition and they may be slightly off.

all answers to the textbook exercises must be typed by computer, except that you may do drawings by hand (**use a ruler!**). Note though that it would be easier and faster to use a program like Excel or StatCrunch to create box plots, etc.

Note on problems involving the binomial model: Provide the formulas with the values plugged in rather than the results. You may type "binom(n, k)" rather than " $\binom{n}{k}$ " or " ${}_nC_k$ " if that's easier for you.

No DVB homework this time.
