Subject: It's Not Too Late to Get Students Registered for WebAssign

Professor Fochler,

Your students' temporary access to *WebAssign* has ended—but don't worry. They can still register and obtain access at any time. Any saved/submitted work will be ready and waiting for them once students complete their purchase.

Please remind any student who hasn't completed the registration and purchase process for *WebAssign* to do so as soon as possible. Share the link to our [Student Registration](#) page for instructions and a quick video on how to register, purchase and access their course materials.
