

1 Errors in WMS, Seventh Edition

Error in WMS Ch.3.9 Exercise 3.153(a), found by Michael Mancuso and Colin McCann:

- $m_Y(t) = [(1/3)e^t + (2/3)]^5 \Rightarrow Y \sim \text{binom}(n = 5, p = 1/3)$
The book erroneously states that $p = 1/10$.
