

Week 15.

1. Page 275. Questions 14, 15, 17.
2. Page 276. 9, (hint: try $\ln(y^3 \sin y^1 * y^2)$) 13, 16,
3. p.284. Ex 7.1, 7.2.
4. Page 315-316. Problems 1, 2, 3, 10

Additional:

Prove that the pseudo "PB₈" with generating row +++-+- is equivalent to a 2³ FD.

Hint: 1. Two matrices A and B are equivalent iff $A=DB$ where $\|D\| \neq 0$. 2. This explains Table 7.3 that there is no line having straight -'s.

+++--
-+++--
--+++--
+---+++
