

(2 points each) In each question, rewrite the statement in your own handwriting. Write both letters so a reader can EASILY tell which is which. They do not have to look like the printed letters but they must be distinguishable. If I am not sure, you will not get the points.

Knowing this can save you points on an exam.

(1) $t \in T$.

(2) $u \in U$.

(3) $v \in V$.

(4) $w \in W$.

(5) $x \in X$.

(6) $y \in Y$.

(7) $z \in Z$.
